

Transfer Agreement

South College and Motlow State Community College

South College and Motlow State Community College hereby enter into a partnership that promotes student transfer and program articulation. The partnership facilitates the transfer of Associate degree course credit to program requirements for South College undergraduate health related programs.

The intent of the agreement is to encourage Motlow State students to complete the Associate degree prior to transfer to South College. Motlow State students who successfully complete the Associate degree will have all Motlow State credits accepted for transfer without evaluation on a course-by-course basis (See Transfer Checklist associated with each program). This does not guarantee admission to any South College program. All other academic and program requirements for the major degree and college (such as the college admission requirements, grade point average, technical standards, interviews, drug/background screenings, observation hours, additional courses, etc.) must be satisfied. Students in any articulated program will not be expected to meet any additional (or fewer) requirements than non-transfer South College students.

1. Motlow State will signify on the student's transcript that the Associate degree was completed. South College will, when evaluating the student's transcript, honor the terms of the agreement for admission to South College.
2. Prior to completing the Associate degree, students should have access to counsel from Motlow State and/or South College staff on the program of study leading to completion of the Associate degree. During this period, students should also have access to counsel by South College staff regarding requirements of the program of study at South College.
4. Students must meet all other graduation requirements of South College including the general, major, and professional education requirements. This includes minimum credit hours, institutional/departmental grade and grade point average requirements, and upper division credit and grade point average requirements, as stipulated in the South College Catalog.
5. For participating students, the transfer agreement is effective for six years from the original entry into college level work at Motlow State. If more than six years elapse from the student's initial date of participation under the agreement, the transfer agreement in place at the time of transfer to South College will determine the student's progress toward degree completion.

6. For students not completing an Associate degree, South College will evaluate transcripts on a course- by-course basis.

On an annual basis, South College will evaluate this partnership agreement and the transfer checklists. In collaboration with the partner institution, South College will discuss any issues or concerns and changes in intuitional credit transfer requirements. Revisions to the current agreement may be made as necessary.
